DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species.

Species A, Figures 1A-1F, directed to Claims 2-5;

Species B, Figures 2D-2F, directed to Claims 6-7;

Species C, Figures 3E-3F, directed to Claims 8-9;

Species D, Figures 4A-4C, directed to Claim 10;

Species E, Figures 5A-5B, directed to Claim 11;

Species F, Figures 6A-6E, directed to Claim 12;

Species G, Figures 7A, directed to Claim 13;

Species H, Figures 7B, directed to Claim 14;

Species I, Figures 7C, directed to Claim 15;

Species J, Figures 7D, directed to Claim 16;

Species K, Figure 7E, directed to Claim 17; and

Species L, Figure 7F, directed to Claim 18.

The species are independent or distinct because each species contains a claimed feature representative in its corresponding Figure(s) that is mutually exclusive from the other respective species.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 3729

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Dexter Tugbang whose telephone number is 571-272-4570. The examiner can normally be reached on Monday - Friday 8:30 am - 5:00 pm.
